

Mental Health Access for Primary Care

D83A

Introduction: Clinical Workstation (CWS) gives Primary Care GPs access to a summary of a patient’s Mental Health and Addictions information including: Care Team, Legal Status, Medication List, and key current documents and forms.

Select a patient and click on the **Mental Health - GP** node within the Tree Pane.

This opens a summary of the Mental Health information available for this patient. The page is laid out with four major and two minor sections; major sections are described below.

Caseload Care Team

The Caseload Care Team are the staff responsible for the Mental Health care of the patient if the patient is a current client of the Mental Health and Addictions Service.

Caseload Care Team			
Caseload Role	Clinician (Role)	Team	Allocated
Psychiatrist	[Redacted] (Consultant)	Central North Sector	19 Apr 2013
Keyworker	[Redacted] (Occupational Therapist)	Central North Sector	19 Jun 2013

Note: During office hours the care team is contactable through Hospital reception (07 839 8899), after hours contact the Crisis Assessment and Home Treatment Team (0800 50 50 50).

Current Legal Status

Current Legal Status displays whether the patient is under a compulsory treatment order including the clinician legally responsible for that treatment order.

Legal Status / Compulsory Treatment Orders				
Indicates that the patient is currently under the Mental Health Act or similar legislation.				
Start Date	Review Date	Days Left	Section	Clinician (Role) Team
16 Aug 2015	16 Aug 2025	3637	Informal	Not Specified

Note: ‘Informal’ indicates that the person does not have a compulsory treatment order. Section numbers refer to sections of the Mental Health Act or other Acts.

Medication Lists

Note: Please use Medication List information with caution as it may be incomplete.

Mental Health and Addictions' medications are recorded in a number of different electronic forms (sometimes on an ad-hoc basis). This node provides the Medication field from the most recent of each of these forms. The source forms may not be always be accessible.

Mental Health Prescriptions may also be scanned and are available from the Documents node within the Tree Pane.

Waikato DHB does not have electronic prescribing. See the Medication Summary node within the Tree Pane for Medical and Surgical service medication information recorded in Discharge Summaries.

Medication Lists - From Forms		Expand to View

Selected Mental Health Clinical Forms

This section makes available forms that are useful to support the care of a client of Mental Health and Addictions Services. These documents will also be available if the person is no longer under MH care.

Selected MH Clinical Forms:			
Last Update / Created	Form Class	Status	
17 Aug 2015 / 05 Nov 2014	Recovery Plan - MH Services	Active current form	
13 May 2015 / 12 May 2015	HRBC Discharge Summary	Completed	
04 May 2015 / 28 Apr 2015	Metabolic and Physical Assessment	Draft	
20 Nov 2014 / 20 Nov 2014	Consultation Liaison Psychiatry - Referral	Completed	
Most recent Mental Health Form by Class			

Individual forms can be opened by selecting the Form Title. The age and status of the form can indicate the relevance of the content.

Clinical Workstation for Primary Health Care Professionals

Forms Available:

Form	Description
MH Triage – External Referral	Triage assessment of external referrals sent from Primary Care, NGOs or other DHBs, including Self-referral by the patient.
Recovery Plan – MH Services	Care Plan used when a specialist plan is not appropriate. Documented from the patient's perspective.
Recovery Plan – MH Services for Older People	Care Plan for older people. May be documented from the patient's or carer's perspective.
Treatment Plan – Infant, Child and Adolescent Services	Care Plan for younger people. Documented from the patient's perspective.
HRBC Discharge Summary	Inpatient Discharge Summary [Henry Rongomau Bennett Centre].
Metabolic and Physical Assessment	Physical Assessment recorded for all Inpatients, may also be used for community patients at risk of Metabolic syndrome.
Vital Signs Monitoring	Recording routine screening (pulse, wt, etc). May be used for tracking Metabolic syndrome.
Consultation Liaison Psychiatry – Referral	Referral and Assessment for Medical and Surgical patients needing Psychiatric support.
Advanced Directive	Advanced Directive (under the MH Act) for how a patient wants to be cared for when unwell.
Revoked Advanced Directive	Revokes the above Advanced Directive – takes precedence over the Advanced Directive.

Cannot find the Information You Need?

Contact the care team (office hours) or Crisis Assessment and Home Treatment Team (08:00 – 23:00).
