

**Introduction:** It is possible to view the dispensed medication history of a patient in CWS dispensed from any Pharmacy in NZ.

## Access to the NZePS is via the Prescribing Module in CWS

1. Log in to Clinical Workstation and search for the patient.
2. In the tree pane, click the **Prescribing** node.

3. In the page that opens, you'll see three tabs across the top, **Waikato DHB prescribed (Medicines view)**, **Waikato DHB prescribed (Script view)** and **Meds from NZePS (National Rx info)**.

A screenshot of the 'Prescribing and Medications' page. The 'Meds from NZePS (National Rx info)' tab is selected and highlighted with a red box. Below the tabs, there is a header for 'Community prescribing/dispensing summary from NZePS (The last retrieval time: 27 May 2022 11:16)'. A table displays medication records with columns for RX, Last updated, Drug, Instruction, Supply, Prescriber, Item Status, # of Events, and Long Term. The table shows four entries for various medications like Metronidazole, Primolut N, and Citalopram.

RX	Last updated	Drug	Instruction	Supply	Prescriber	Item Status	# of Events	Long Term
<input type="checkbox"/>	23 May 2022	Metronidazole 400Mg Tab	No alcohol ....	14 tablet	Dr XXXXXXXXXXXX	Active	0	No
<input type="checkbox"/>	23 May 2022	Primolut N 5Mg Tab (Blister)	1 tabs, Twice Daily	20 tablet uncoated	Dr XXXXXXXXXXXX	Active	0	No
<input type="checkbox"/>	23 May 2022	Primolut N 5Mg Tab (Blister)	1 tabs, Twice Daily	20 tablet uncoated	Dr XXXXXXXXXXXX	Active	0	No
<input type="checkbox"/>	20 May 2022	Citalopram 20Mg Tab	Take one tablet daily safely	14 tablet	XXXXXXXXXXXX	Active	0	Yes

4. The first two tabs, **Waikato DHB prescribed (Medicines view)** and **Waikato DHB prescribed (Script view)**, will provide access to prescriptions written by Waikato DHB clinicians.

## Advanced

1. By default, only the last 1 year is displayed.

This can be changed by increasing the period selected.

**Prescribing and Medications**

Community prescribing/dispensing summary from NZePS (The last retrieval time: 27 May 2022 11:16) Period: Last 1 Year [Re-Lock]

NZePS started storing data from 2013. The accuracy of the data depends on the pharmacies contributing the correct information to NZePS. Especially in the early days, not all GPs and pharmacies were contributing their data to NZePS. Some medications are not displayed on patient's request. When important for the patient's care, the records can be unlocked by clicking on the open padlock. All access will be audited.
